Re: Press Release- **Change in date**

S. First Street – Tipp Canal Road Closure & Detour in Tipp City

Veolia Water, in cooperation with Tri-Cities Regional Wastewater Treatment Plant, jointly owned by the cities of Tipp City, Vandalia, & Huber Heights, will have a scheduled road closure on S. First Street - Tipp Canal Road on **Wednesday, January 18, 2012 (due to the weather forecast)** from 8:30 am until 1:30 pm. The road closure will be between Evanston Road on the south and Kyle Park Drive in Tipp City on the north, with a “Closed to Thru Traffic” barricade posted at Elm Street. Veolia Water will have these locations temporarily barricaded with an attending person to assist in directions. Although the detour route will not be signed or posted during this closure, the recommended route is Evanston Road, S. Hyatt Street, and Main Street (State Route 571). Kyle Park will remain open during this road closure, though access to the park can only be reached from the north. Please direct any questions about the road closure to Jeremy Bowser of Veolia Water at 937-603-4641 or to the City of Tipp City at 667-6305.
