### Tipp City Mum Motorcycle Ride

**Saturday, September 4**

Boy Scouts of America Troop 586 are once again offering everyone the opportunity to join in the celebration of the festival by adopting a mum. The Boy Scouts will be painting mums on the sidewalks and driveways of those wishing to adopt a mum. Cost of a mum is \$10. The mums are approximately 3' x 3' and can be painted in your choice of red, white, yellow or a combination. Order forms are located on the official mum festival website: [tippmumfestival.org](http://tippmumfestival.org) (under the applications and forms tab). ●

## Capital Improvement Program Workshop

The 5-year Capital Improvement Program (CIP) workshop will be reviewed by City Council on Monday, September 27 beginning at 3:00 p.m. in Council Chambers. This meeting is open to the public and all interested persons are encouraged to attend. ●

**Beggar's Night**  
Beggar's Night for Tipp City and Monroe Township has been set for **Thursday, October 28th from 6-8 p.m.**  
*trick or treat*

## Home Security Camera Video Program

The City of Tipp City Police Department needs your help! From time to time home security camera videos can help the Tipp City Police Department gather critical information about crimes and suspicious activity in the City. If you have a security camera on your home or business, please sign up for our FREE Home Security Camera Video program. This program is designed to help us identify those homes or businesses within our community with cameras. If in the event a crime occurs in the area, we will have a map

available as to which residences and business might have captured helpful evidence for us. Please note this program is only for mapping purposes and the Tipp City Police Department will not have access to your security cameras nor will they have access to view any footage without the homeowner providing it to the Police Department. Please complete the form on the City's website to be added to our map! <https://www.tippcityohio.gov/formcenter/police-11/security-camera-archive-54> ●

## Fall Sports Injuries

School is once again upon us and with it brings along many outdoor physical activities such as band, soccer, volleyball, golf, cross country and football. Injuries and medical conditions can rear their ugly heads at a moment's notice. Tipp City Fire & EMS would like to remind all of us about first aid guidelines.

### Hyperthermia (Overheated/Overexerted) First Aid

1. Pre-hydrate on a regular basis and prior to events
2. Remove the person from the heat
3. Remove as much clothing or uniform as possible
4. Cool with wet towels or small ice packs to the underarms, neck and groin (avoid ice baths)
5. If person is not sweating and should be or no improvement noted call 9-1-1 immediately

### Concussion

Signs and symptoms may include (only one or two are needed to indicate further treatment is needed)

1. Headache or a feeling of pressure in the head
2. Temporary loss of consciousness
3. Confusion or feeling as if in a fog
4. Amnesia surrounding the traumatic event
5. Dizziness or "seeing stars"
6. Ringing in the ears
7. Nausea
8. Vomiting
9. Slurred speech
10. Delayed response to questions
11. Appearing dazed
12. Fatigue

Seek emergency care for an adult or child who experiences a head injury and symptoms such as:

1. Repeated vomiting
2. A loss of consciousness lasting longer than 30 seconds
3. A headache that gets worse over time
4. Changes in his or her behavior, such as irritability
5. Changes in physical coordination, such as stumbling or clumsiness
6. Confusion or disorientation, such as difficulty recognizing people or places
7. Slurred speech or other changes in speech

If emergency care is not indicated. We still recommend consulting your medical provider within 1 to 2 days. Do not return to competition without being assessed by a medical professional (including Athletic Trainers)

### Injuries

1. The injury will dictate movement or non-movement
2. Use caution and general first aid procedures such
  - a. Splint in place and to comfort
  - b. Do not move limb
  - c. Direct pressure on bleeding wounds
3. Use ice packs liberally
4. Consult Athletic Trainers if available

Please keep in mind that outdoor physical activities are tremendous fun. The risk of injury or illness remains low. As always, your effort to be prepared will assist you when confronted with a situation that may be unique to you. Athletic Trainers provided by our local health networks are valuable resources on the sidelines of most sporting events.

## Hydrant Flushing

The Tipp City Water Department will be flushing fire hydrants Monday, September 27, 2021 through Friday, October 8, 2021, during the hours of 7:30 am to 3:30 pm. **The following schedule will be followed.**

**The following schedule will be followed.**

- **Monday, September 27** – (Main Street South) all hydrants from South First Street to Hathaway, including the Roslyn area.
- **Tuesday, September 28** – (Main Street North) all hydrants starting at North First Street to Bowman Avenue.
- **Wednesday, September 29 & Thursday, September 30** – (South West area) Tipp Plaza areas, Hathaway, Spring Hill, Willow Glen, Cottonwood, Hampton Woods, Hunters Ridge, York Meadows and Sycamore Woods.
- **Friday, October 1** – along Evanston Road, and S. County Road 25-A south of Evanston Road going to Corner Stone Drive.
- **Monday, October 4 & Tuesday, October 5** – (North West area) all hydrants starting at Westedge, Tippecanoe Village, Manchester Chase, North Tippcowlesville Rd, Tweed Woods, Commerce Park Drive, Weller Dr. and Curry Branch.
- **Wednesday, October 6 & Thursday, October 7** – (North West area) all hydrants starting on County Road 25-A, Spring Meade, Woodlawn, Donn Davis Way, Windmere, Oakwinds, Cedar Grove and Rosewood Creek.
- **Friday October 8** – will be used as a makeup day if needed.

Water in these areas may be discolored. Residents are advised to avoid using laundry or hot water facilities during the flushing period. If residents find their water to be discolored, they should run cold water for 5 to 10 minutes until the water clears.

Although the water will not be turned off, a drop in pressure in some areas is likely. If you have a backflow device or a water supplied sump pump, residents may want to valve these off for the day.

Flushing hydrants is a preventive maintenance program to periodically clean out natural residues which deposit in the water lines, as well as to test the hydrants.

Any questions can be directed to the City Utility/Services office at (937) 667-6305. ●
